Mac Armstrong, Chairman and Chief Executive Officer, commented, "I am very pleased with our strong second quarter results. Our team successfully executed our Palomar 2X strategy of profitable growth despite the elevated catastrophe activity and the historically hard reinsurance market that has significantly impacted the insurance industry. In the quarter, we focused our capital and resources towards targeted segments of our book of business, such as earthquake, inland marine, and casualty to maximize our risk-adjusted returns while we continued to reduce exposure to segments of our book that add volatility to our results. This prudent approach resulted in gross written premium growth of 25% and, importantly, an adjusted return on equity of 21.3%."

Mr. Armstrong continued, "Beyond the strong financial results, the quarter featured several noteworthy accomplishments that position us well for near and long-term success. We effectively placed our June 1 reinsurance program in line with our expectations and subsequently raised our adjusted net income guidance for the full year. We also hired a team of professional liability underwriters to expand the expertise within our casualty franchise, and, in July, we received a "positive outlook" from A.M Best. On the heels of this quarter, we are further raising our adjusted net income guidance range to \$89 million to \$93 million for 2023."

Underwriting Results

Gross written premiums increased 25.4% to \$274.3 million compared to \$218.7 million in the second quarter of 2022, while net earned premiums increased 3.5% compared to the prior year's second quarter.

Losses and loss adjustment expenses for the second quarter were \$17.9 million including \$15.7 million of non-catastrophe attritional losses, and \$2.2 million of catastrophe losses from severe convective storms during the second quarter offset slightly by favorable prior period development of catastrophe losses. The loss ratio for the quarter was 21.5%, comprised of a catastrophe loss ratio(1) of 2.6% and an attritional loss ratio of 18.9%, compared to a loss ratio of 17.9% during the same period last year comprised of a catastrophe loss ratio(1) of 0.7% and attritional loss ratio of 17.2%.

Underwriting income(1) for the second quarter was \$17.4 million resulting in a combined ratio of 79.0% compared to underwriting income of \$20.0 million resulting in a combined ratio of 75.1% during the same period last year. The Company's adjusted underwriting income(1) was \$23.1 million resulting in an adjusted combined ratio(1) of 72.2% in the second quarter compared to adjusted underwriting income(1) of \$24.8 million and an adjusted combined ratio(1) of 69.1% during the same period last year.

Investment Results

Net investment income increased by 76.5% to \$5.5 million compared to \$3.1 million in the prior year's second quarter. The increase was primarily due to higher yields on invested assets and a higher average balance of investments held during the three months ended June 30, 2023 due to cash generated from operations. The weighted average duration of the fixed-maturity investment portfolio, including cash equivalents, was 3.86 years at June 30, 2023. Cash and invested assets totaled \$660.2 million at June 30, 2023. During the second quarter, the Company recorded net realized and unrealized gains of \$1.1 million related to its investment portfolio as compared to net realized and unrealized losses of \$4.7 million in last year's second quarter.

Tax Rate

The effective tax rate for the three months ended June 30, 2023 was 23.7% compared to 20.2% for the three months ended June 30, 2022. For the current quarter, the Company's income tax rate differed from the statutory rate due primarily to the non-deductible executive compensation expense.

Stockholders' Equity and Returns

Stockholders' equity was \$413.7 million at June 30, 2023, compared to \$378.1 million at June 30, 2022. For the three months ended June 30, 2023, the Company's annualized return on equity was 17.2% compared to 15.4% for the same period in the prior year while adjusted return on equity(1) was 21.3% compared to 23.7% for the same period in the prior year. During the current quarter, the Company repurchased 166,482 shares for \$8.7 million

pursuant to the Company's previously announced \$100 million share repurchase authorization. As of June 30, 2023, \$50.0 million remains available for future repurchases.

Full Year 2023 Outlook

For the full year 2023, the Company expects to achieve adjusted net income of \$89 million to \$93 million. This includes catastrophe losses incurred in the first and second quarters of approximately \$4.0 million. The expected results do not include any additional catastrophe losses for the remainder of the year.
